

Third Day "Took My Place"

Visit "[Took My Place](#)" on [MotoLyrics.com](#)

Lost like a little child
Helpless as a baby
I was searchin' desperately to find
Someone who could save me

Then along came from out of nowhere
Precious as the light of day
You gave me something no one could take away
Yeah, when You took my place

Chained like a prisoner
From the day that I was born
Blamed like a criminal
For the things that I'd done

Then along came from out of nowhere
Precious as the light of day
Well, You gave me something no one could take away
Yeah, when You took my place
Took my place, yeah yeah

Lost like a little child
Helpless as a baby
I was searchin' desperately to find
Someone who could save me, yeah

Then along came from out of nowhere
Precious as the light of day
Well, You gave me something no one could take away
Yeah, when You took my place
Took my place, yeah
Oh, took my place
