We are in a battle, not against flesh and blood  
Now we need to take our stand against the evil one  
Well, none of this is possible without some special gear  
Follow these instructions and you'll never have to fear

Chorus:

Put on the full armor of God  
Get fully equiped for the battle  
With these things you can take your stand  
For what you know is right  
So, get fully dressed and go fight the fight

Buckle up the belt of truth tight around your waist  
With righteousness your chest protector in it's proper  
place  
Walking in the gospel shoes that fill your life with peace  
If you get your armor on your chances will increase

(Chorus)

The sheild of faith will guard you from temptations left  
and right  
And with the bible as your sword you're bound to win  
this fight  
Put on your head the helmet that declares you have  
been saved  
And now that God has dressed you, you don't have to  
be afraid 'cause

Jesus does not want you to turn your back and flee  
But go and take your stand against the enemy  
There is no way that you'll be harmed  
Because you are fully armed

(Chorus)
