I remember when I realized
The depth of your beauty for the first time
A million ears had heard you
But none had listened quite like mine

Every phrase that leaves your lips
Makes me feel as if I'm paralyzed
Talking is trivial, sing another crazy note
And I will be a third below

The troubles that we knew before
Disappear and all I know is that

It makes no difference where you come from
I don't care if you need my love
You know I'll be there
I swear I want to sing to the world
No need to keep it a secret
You are the one, the only
My musical soulmate

Darling listen
The audience is calling you
(They're calling you)
But there's no way in hell that
They will ever feel you like I do

It makes no difference where you come from
I don't care if you need my love
You know I'll be there
I swear I want to sing to the world
No need to keep it a secret
You are the one, the only
My musical soulmate

Makes no difference where you come from
I don't care if you need my love
You know I'll be there
I swear I want to sing to the world
No need to keep it a secret
You are the one, the only

My musical soulmate
