Here in this room  
a persistant perfume and this letter I found  
Take me away to yesterday  
where towering trees now crumble it seems  
but you can tell them

chorus:  
I'm gonna smoke this signal  
as soon as I burn this whole city down  
whoa  
God take my love from me  
I don't deserve to leave and be found

Here in this car  
I try to drive far  
but the tail-lights remain  
So sing me a song  
sweeten the every year every day  
come from everywhere  
You're never alone  
so you can tell them

(chorus x2)
