

## Thirsty Merc "Mousetrap Heart"

Visit "[Mousetrap Heart](#)" on [MotoLyrics.com](#)

Hot woman go and come back in denim  
i could see that she was west end vemon  
kind of girl that is chased by desire  
only person that could get me higher  
blood flowing like a tap left running  
little smile i could see she's cunning  
white knight oscillating primal  
i was booked on a trip so final

and it sounds so funny but i spend my money  
obn a journey that you can depend on  
but i know i'd look back and only feel messed  
up again.  
(and i was saying)

mayday  
she gonna tear it all apart  
this girl has got a mousetrap heart  
(i'll say it again)  
mayday  
what a pretty way to start  
this girl has got a mousetrapp heart...

hot woman say 'do you wanna drive, do you?'  
russian eyes - i could taste that voodoo  
and we were slippin' into fahrenheit burning  
hell city but my earth still turning  
had a moment i could see six flowers  
hallucinating in the jet plane hours  
two lips like rhythiming couplets  
dropped a line - caught a fishnet

and it sounds so funny but i spend my money  
on a journey that you can depend on  
and with the gin in my eyes,  
i could hear the sweet cries  
from a temple in the baha'i sun  
with the 20-20 vision of hindsight  
i know i'd look back and only feel messed  
up again  
but she took my moment and owned it  
(and i was saying)

mayday  
she gonna tear it all apart  
this girl has got a mousetrap heart  
(i'll say it again)  
mayday  
what a pretty way to start  
this girl has got a mousetrap heart...

i know what you're about  
you've always had it all  
without a shadow of a doubt  
just say the word and make me fall  
i see this playing out  
so let's just move things forward  
where you take my car, and my money...  
(can't believe you think that's funny)  
sharp shoes damn verging on lethal  
kepp em' on babe, we don't need people singin:

mayday  
she gonna tear it all apart  
this girl has got a mousetrap heart  
(i'll say it again)  
mayday  
what a pretty way to start  
this girl has got a mousetrap heart...
