

## Thirsty Merc "Tommy And Krista"

Visit "[Tommy And Krista](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Well Tommy met Krista at the age of nineteen  
The prettiest girl that he'd ever seen  
And there was not alot of waiting, they started dating  
They used to hang out at the coffee shop there  
And the weather was nice and the stakes were quite  
high  
And one day Tommy made Krista cry  
A little mixup, screwup, started a fight and Krista  
went and said goodbye

She used to be in love with me  
And now she's gone and taken all the love away  
She used to be in love with me  
And now I'm just a memory

She used to be in love with me  
And now she's gone and taken all the love away  
She used to be in love with me  
And now I'm just a memory

Well couple years on, he was out with his friends  
When Tommy walked into a room and saw Krista again  
Crazy thing was it was all still there  
Tommy said "Hey you want to drive somewhere?"  
They drove to the city where the lights shine low  
And Tommy had a feeling that his heart could be over  
In a second he was down as something she said  
"Tommy I'm with someone else"  
"Tommy I'm with someone else"

She used to be in love with me  
And now she's gone and taken all the love away  
She used to be in love with me  
And now I'm just a memory

She used to be in love with me  
And now she's gone and taken all the love away  
She used to be in love with me  
And now I'm just a memory

Well Tommy never turned to aggression nor fear  
Instead he started working in the New Year

But at night she'd invade his thoughts and his dreams  
He can't keep his mind away from Krista it seems  
And, so cold but funny enough  
Krista and her boyfriend were broken up  
But until they meet again and the time feels right  
This is how it ends tonight  
This is how it ends tonight

She used to be in love with me  
And now she's gone and taken all the love away  
She used to be in love with me  
And now I'm just a memory

She used to be in love with me  
And now she's gone and taken all the love away  
She used to be in love with me  
And now I'm just a memory

She used to be in love with me  
And now she's gone and taken all the love away  
She used to be in love with me  
And now I'm just a memory

She used to be in love with me  
And now she's gone and taken all the love away  
She used to be in love with me  
And now I'm just a memory
