a picture of me, or what you want me to be
and then I come to find, you want me only in your mind
nothing to feel, or be real
I need to know
I need to see
I need to hear
what your thinkin of me
I need to know
I need to see
I need to hear
what your thinkin of me
When you wake up from your dream, I see you smile
you think i've changed, but only for awhile
then you realize who it is, not she but me
your smile quickly fades, you come back to reality
I need to know
I need to see
I need to hear
what your thinkin of me
I need to know
I need to see
I need to hear
what your thinkin of me
Then I see you stare, gazing at me intently
waking up from all the dreams you had of she
then I find you there, finally you really look at me
and stop thinkin of what you want me to be
Is it me, is it she, is it me, is it she
I need to know
is it me, is it she, is it me, is it she
I need to see
Is it me, is it she, is it me, is it she
I need to hear
What your thinkin
what your thinkin
what your thinkin
of me.
