It's colder out there  
You know that, don't you dear?  
It's harder out there  
But you know that, don't you dear?

It's colder out there  
You know that, don't you dear?  
It's further out there  
But you know that, don't you dear?

Oh, won't you stay  
Forever and a day?  
You're safe on the inside  
You're so far away  
Won't you stay?

I'm burning out there  
But you know that, don't you dear?  
I'm holding out there  
You know that, don't you dear?

Oh, won't you stay  
Forever and a day?  
You're safe on the inside  
You're so far away  
Won't you stay?
