All i've got is one shot  
So let's get it over with  
Tell me where do i aim  
It's all the same to me  
I've got nothing to lose and nothing to gain  
I thought i was halfway but i'm not even close  
I am running in circles around you  
Without ever getting a clearer view of you  
If you want it to end right here  
It will end right here  
This will be the end of the line  
If you want me to pull over now  
I will pull over now  
I will turn around right here  
All it takes is all i'm not  
All i need is all you've got  
Show me where do i go  
I can't see the wood for the trees  
You have brought me so far  
Now finish what you've started  
You have brought me so far  
Now won't you take me home  
Cut it off. cut it off  
If it leads you astray  
If it pulls you away  
From where you should be  
It's better to go blind  
Than to never go at all  
It's better to take the fall  
Than to never fall at all
