Bouncin' down the road  
They're always catching out the guys  
Big ones, small ones, saggy ones, pert ones  
We try so hard to avert our eyes  
We marvel at their beauty  
And girls can't understand  
Our enormous fascination  
By these beautiful mammary glands  
We are a nation that love's girls breasts  
We suck 'um we lick 'um we are obsessed  
Big or small we're not fussed  
You can't beat a girls juicy bust  
I love boobies and I've finally found a pair  
No matter how hard I try all I do it stare  
What's the deal, tell me girls, with the bra strap  
It's stopping me from getting to those cheeky little  
chaps  
As long as there are tits I won't give a shit  
Boobs, tits, jugs, breasts how can we fault the female  
chest  
Boobs, tits, jugs, breasts  
Tit's jubilee's and boobies, hoo hoo's
