Before I went out I'd never seen the day

But now I got out regret what I say

But now I got out I can't find my way

I'll be there if that's o.k.

Before I went out I'd never seen the day

But now I got out regret what I say

But now I got out I can't find my way

I'll be there if that's o.k.

I don't care

I want my fucking

I don't care

I want my fucking life

I don't care

I want my fucking

I don't care

I want my fucking life

Sometimes your life is just so full of shit

But you know it isn't nothing but shit

Just a bit more space and I might survive

Your life is nothing but a useless lie

I don't care

I want my fucking

I don't care

I want my fucking life

I don't care

I want my fucking

I don't care

I want my fucking life

I want my fucking life [x15]
