"Ghost"

I was a ghost before you came
And I was a slave but then I changed
And I will take the good and bad from many
I am a slave to this again

So leave me alone before this strain of listening to me
Comes more than you can bare
And maybe this time we will be fine
Or else our tomorrow it will be lost

CHORUS

I feel you calling me when I'm alone
I feel you calling me it's keeping me up
I wanna be with you, now now

I feel you calling me when I'm alone
Hot nights and moonlight it's keeping me up
I gotta be with you, now

There was a force I swear
I thought'd take me out
And there was a chance that we could go so far
As I look in your eyes
I know you say no war no war no more
No battles to fight in this life

CHORUS

Tell me a way 'til then to find my braces and grades
Before we explode
And maybe this time we will be fine
And our tomorrow it won't be lost (in this life)

CHORUS
