"Damaged Heart"

Visit "[Damaged Heart](#)" on MotoLyrics.com

Silence now, I know what you're feeling
No need to be afraid
You thought you had to leave here
It turns out you have to find your way

*Chorus

I'm right here with you
I'll take your pain and throw it all away
Just to see your smile, to see your eyes
There's HOPE for you and I

*Chorus

Let your spirit soar
Just don't ever look back
I'll be right beside you
Taking off and changing your world

*BRIDGE

*Chorus

Just to see your smile, to see your eyes
There's hope for you and I
