If you go I'll wait for you
If you go I'll wait for you

You wouldn't drive without a key
You can't live if you don't bleed
You try to run but there's no peace without me you

You wouldn't drive without a key
And I miss you since you left me
You try to run without me

If you go I'll wait for you
If you go I'll wait for you

I know that you will wish I was there
Some day, some day, some way
Wishing I knew your every care
Some day, some day, some way

You wouldn't drive without a key
You can't live if you don't bleed
You try to run but there's no peace without me you

You wouldn't drive without a key
And I miss you since you left me
You try to run without me

Paint the walls your favorite shade of blue
I hope all your dreams come true
And I will be renewed

And I won't waste your time anymore
Finally put a lock on our closed door
And you will not break through

And we'll try to put smiles on our face
See who is the quickest to replace
Our lost and broken love
