You left me in the rain
With nothing but a name
No phone number to call
But I will never fall

I left you with a kiss
To remind you what you'd miss
When all was said and done,
I just thought you were the one.

Chorus:
But I was wrong
And you knew all along
Exactly what you would do
The moment that I fell for you

I thought we knew each other
But you proved me wrong
I thought we'd last forever
And now you're gone

You made me believe
That miracles could happen
You made me think
That what we had was real

You always told me
You would love me forever
And so I foolishly thought
That we would always be together

(Chorus)

Hook:
I know that you never meant to hurt me
I know that you never meant to change me
I know that in the end the truth always comes out
And in the end I found out

That I was wrong
And you knew all along

Exactly what you would do
The moment that I fell for you

I thought we knew eachother
But you proved me wrong
I thought we'd last forever
And now you're gone

Yeah I thought we knew eachother
But you proved me wrong
I thought we'd last forever
And now you're gone
