

This Mortal Coil

"Late Night"

Visit "[Late Night](#)" on MotoLyrics.com

When I woke up today
And you weren't there to play
Then I wanted to be with you
When you showed me your eyes
Whispered love at the skies
Then I wanted to stay with you

Inside me I feel, alone and unreal
And the way you kiss will always be
A very special thing to me

When I lay still at night
Seeing stars high and light
Then I wanted to be with you
When the rooftops shone dark
All alone saw a spark
Spark of love just to stay with you

Inside me I feel, alone and unreal

And the way you kiss will always be
A very special thing to me

If I mention your name
Turn around on a chain
Then the sky opens up for you
When we grew very tall
When I saw you so small
Then I wanted to stay with you

Inside me I feel, alone and unreal
And the way you kiss will always be
A very special thing to me

Inside me I feel, alone and unreal
And the way you kiss will always be
A very special thing to me
