I want a worry free girl
She's gonna save my world
She's gonna make it right,
She's gonna make it right...

We won't save our sins-
It's too late
We wont make our getaway...

Ask her later
Celebrate her
Say it all day
'Cause that'll faze her
I just want the operator
We can talk about this later

Ask her later
Celebrate her
Say it all day
'Cause it'll faze her
I just want the operator
If not, then I must imitate her

My worry free girl
She's gonna ruin my world
She's gonna fuck it right,
She's gonna fuck it right...

We wont save our sins-
It's too late
We wont make our getaway...

Ask her later
Celebrate her
Say it all day
'Cause that'll faze her
All I wants the operator
How we'll talk about this later

Ask her later
Celebrate her

Say it all day
'Cause it'll faze her
I just want the operator
How I want to imitate her

Ask her later
Celebrate her
Say it all day
'Cause that'll faze her
I just want the operator
Now I want that girl to feel...

How I feel...
How I felt...
How I felt...

We wont save our sins-
Its too late
We wont make our getaway...

Ask her later
Celebrate her
Say it all day
'Cause that'll faze her
I just want the operator
We can talk about this later

Ask her later
Celebrate her
Say it all day
'Cause that'll faze her
I just want the operator
If not then I would imitate her

Celebrate her
Ask her later
Say it all day
'Cause that'll faze
How I want the operator
We can talk about this later

Ask her later
Celebrate her
Say it all day
'Cause that'll faze her
I just want the operator
If not then I would mostly likely scream
