Let's party, you got the right to party  
Let's party, you got the right to party  
Hey guys, you really know what I like (just like that)  
You know that I'm really fine (I like that)  
When it's raining and bad news is on tv  
Don't get crazy  
Let's party, you got the right to party

Hey guys you know what turns me on (on, on)  
Come let it go baby, let it show baby,  
Let me know what makes your mind blow, uh  
And makes you loose it at night  
Don't get crazy  
You know it's your right to party  
Come with me because it's time to party yeah  
Join me and let's go to a party, come on

Everybody has a right to party get crazy  
Why don't you get crazy, crazy  
Come with me because it's time to party, oh yeah  
Join me and let's go to a party  
You know you really got to get down  
Come to a party with me

Just party with me  
Every little moment is so special for me  
I' a little bit crazy, crazy, like a baby, oh  
You got it going baby  
When it's raining and bad news is on tv  
Don't get crazy

Let's party, you got the right to party  
Hey guys you really know what I like just like that  
You know that I'm really hot (yeah, yeah, yeah, you are)  
Don't get crazy  
You know it's your right to party  
Come with me because it's time to party, yeah

Join me and let's go to a party, come on  
Everybody has a right to party get crazy  
Baby, keep it up keep the party alive

Come with me because it's time to party, oh yeah

Join me and let's go to a party  
Think I'm going crazy right now  
Come to a party with me  
Just party with me  
This is true love baby yes it's true  
You got the loving I need  
And I always will be there for you

I'm your baby (yeah, yeah, yeah)  
I'm really your baby yeah  
Let's go  
Come with me because it's time to party (yeah)  
Join me and let's go to a party, come on

Everybody has a right to party, get crazy  
Baby are you ready to keep it up, keep the party alive  
Come with me because it's time to party, oh yeah  
Join me and let's go to a party  
You know you really got to get down

Come to a party with me  
You better get crazy so one more  
Come to a party with me  
Just party with me, yeah
