Girl you're beautiful
You're bout near perfect
But I bet somebody's already told you that
Name your poison
Name your passion
Cause a boy like me just couldn't help but ask
Keep on talking to me baby
I'm hanging on your every word
Keep those drinks a coming maybe
We'll both get what we deserve

[Chorus]
How bout baby
We make a promise
To not promise anything more than one night
Complicated situations
Only get worse in the morning light
Hey I'm just lookin' for a good time

Put in a long hard week doing this 9 to 5
And you're just the girl to get that off my mind
You shouldn't 've worn that dress
You shouldn't dance like that
You got this little heart of mine in overdrive
I sure love this conversation
The band is good, the music's loud
But would you get the wrong impression
If I called us a cab right now

[Repeat Chorus]

Go ahead and lie to me and pull me close
Tell me that you love me even if you don't
The rule is don't you ever even talk about forever
But you never say never in life

[Repeat Chorus]

Hey I'm just lookin' for a good ti
