This morning isn't like
any other morning
I wanna change I wanna change for you
This morning isn't like
Any other morning
I wanna stay I wanna stay right here with you

So, don't look so surprised
When you can't see through me
It will draw you to me
And you won't be so alone
I'm never gonna let you go
I'm never gonna let you go

This moment isn't like
Any other moment
I can refrain from everything I do
This moment isn't like
Any other moment
I feel, I feel you here you know I do

So, don't look so surprised
When you can't see through me
It will draw you to me
And you won't be so alone
I'm never gonna let you go
I'm never gonna let you go
I'm never gonna let you go
I'm never gonna let you go

Don't you dare lie to me tonight
Don't you dare say I didn't try
To hold on to you

This Morning isn't like
any other morning
