I've seen the wind carry fire
I've seen you dress up in black
I've seen your eyes and they haunt me
But now you're gone and I'm still right here

Come play chords of hope
All is gone
Now it is gone
The air that filled my lungs now
Now it is gone for good

Come give me hope
Give me something
What if I'd promise we'd stay right here now?
As all outside rests in silence
But now you're gone and I'm still right here

Come play chords of hope
All is gone
Now it is gone
The things I wished and hoped for
Now they are gone for good
