Pulling me under
You're leaving me breathless
Feeling the thunder
My heart is helpless
It's true
You come around and the stars light up the sky
Say my name and how could I describe
[Chorus]
That's the way you love me baby
Baby that's the way
You lift me up
You chase the clouds away
And like the sun you melt my sadness
You come and fill my heart with gladness
Baby
Baby that's the way
Out of the clear blue
Something so tender
I wanna be near you
I wanna surrender oh baby baby
I have to smile 'cause you seem so unaware
Just a touch and I'm dancing in mid-air
[Chorus]
That's the way you love me baby
Baby that's the way
You lift me up
You chase the clouds away
And like the sun you melt my sadness

You come and fill my heart with gladness
Baby
Baby that's the way
I was searching for meaning
I had lost my faith in love
'Till you came along
And filled my life with your song
You turned my world around baby
Baby that's the way
You lift me up
You chase the clouds away
And like the sun you melt my sadness
You come and fill my heart with gladness

Baby
Baby that's the way
Baby that's the way
Like the sun you melt my sadness
Baby that's the way
You come and fill my heart with gladness
Baby that's the way
Like the sun you melt my sadness
Baby that's the way
You come and fill my heart with gladness
Baby that's the way
Baby that's the way
Baby that's the way
Baby that's the way
