I always dreamed
That love would come
Along and make me feel this way
I know that it was real
When it finally came someday

[Chorus]

If I never wash away this kiss
If I left it there right where it is
Baby I could always feel like this
If I never wash away this kiss

I wasn't sure
So insecure
Only that I had been in love before
But I was in need
Love is so much more

[Chorus]

If I never wash away this kiss
If I left it there right where it is
Baby I could always feel like this

If I never wash away this kiss
Love like the candle's light
Will dance away the dark
It won't quit until it's lit each corner
Of the heart
The first time we met
I'll never forget
The very last thing on my mind was love
When our lips touched
I knew that's what it was

[Chorus]

If I never wash away this kiss
If I left it there right where it is
Baby I could always feel like this
If I never wash away this kiss
If I never wash away this kiss
