early in the summer
I just wanna be with you
can't you wait a little longer
take a swim, my lover
moon is shining down on me
you're my lucky number

(touch of your ferret, the) (16x)

ah a-ah (4x)

now the summer's over
wishing you were here with me
standing by the fire
something to remember
sitting in an empty room
late night in december

(now summer's gone)
(wishing you were here with me)
(standing by the fire)
(something to remember)

ah a-ah (4x)
