No cause to worry
Funeral insurance is covered
Third world plight by credit card
Here is the news the way you want to hear it

Can you imagine the party when it's just you and me
Can you imagine the party when we switch off the TV
Here is the news the way you want to hear it

On the TV screens in living rooms
In the houses of suburbia
On the edges of the urban glow
Through the outskirts of the modern soul

Transitory images feeding transitory interests
Bigger faster better killer
Happy now the death comes quicker

Here is the news

Can you imagine the party when it's just you and me
Can you imagine the party when we switch off the TV
Here is the news the way you want to hear it
