Hey Annie
Do you want more, baby, do you want more?
Hey Annie
I want more, baby, I want more
Hey Annie
Jump up down from the top to the floor
Hey Annie
I want more, baby, I want more

Let the music play, I close my eyes
You know I feel for you
(Do you want more, baby, do you want more)

Hold my hand and tell me,
"I don't ever want to live without you"
(I want more, baby, I want more)

The beat goes on and on
I can't go wrong when it is just you and I
(Baby, baby, when the beat goes on)

Caught between the present and a future
That is left to decide

It might take forever
We could grow and change together
If you listen, you might discover
A new sound
A new voice
A new love
If we put our hands together
Yeah we're all here for the better
In the music you might discover
A new pulse
A new beat
A new love

Hey Annie
Do you want more, baby, do you want more?
Hey Annie
I want more, baby, I want more

The time has come for me to seek the moment
And to tell you the truth
(I can't stop, baby, I can't stop)

The sound of our minds were off
But baby, we made it through
(Drop that bomb, baby, drop that bomb)
I can't believe I'm standing here
I'm static, baby, can't even move
(I can't stop, baby, I can't stop)

I'm looking to the future with a choice
And not a second to lose

It might take forever
We could grow and change together
If you listen, you might discover
A new sound
A new voice
A new love
If we put our hands together
Yeah we're all here for the better
In the music you might discover
A new pulse
A new beat
A new love

It might take forever
We could grow and change together
If you listen, you might discover
A new sound
A new voice
A new love
If we put our hands together
Yeah we're all here for the better
In the music you might discover
A new pulse
A new beat
A new love

Will you be around (hey Annie)
From this moment on (hey Annie)
Baby, come around (hey Annie)
Dance with me
Just dance with me

You know I'll be there (hey Annie)
Show you that I care (hey Annie)
You know it started here (hey Annie)
Dance with me
Just dance with me
