"Sweet"

Visit "[Sweet](#)" on MotoLyrics.com

there's a place that's strange
where everybody knows my name
and they dance in different ways
and everybody knows my name
there's a place that's cool
where people go to break their rules
and I know I can't refuse
'cause people wanna break the rules

sweet little things we keep untold, truly
I feel it shakin', take control
take me to me
(2x)

far and away, I'm straight up
I go the whole way
you want to stay boy, checking out on me
far and away, I wake up
I go the whole way
you want to stay boy, stepping out with me

there's a place that's strange
where everybody knows my name
and they dance in different ways
and everybody knows my names

sweet little things we keep untold, truly
I feel it shakin', take control
take me to me
(repeat until end)
