thank u 4 helping me,thank u for leting me be ,  
thank u,thank u, thank u for looking after me

every time i go outside i try to ride my bike  
but i fall off and i just might cry but there  
you are helping me.....

thank u 4 helping me,thank u 4 letting me be ,  
thank u, thank u, thank u 4 looking after me

if its a sunny day you would say should we go  
to the beach and play.once we get there you say  
not over your hips and i say i gotta tryand  
there i amd out so deep thinking am i going to die  
but look who comes its my mum

thank u 4 helping me, thank u 4 letting me be ,  
thank u, thank u, thank u 4 looking after me

when i am older i dont want to leave u alone and i say  
i shouldn't stay.there i lay watching you thinking is  
there any clues then i look at the door and think just  
4 more monthes then your free dont let me be i dont  
want  
to cry, how about if i struggle and get into a fight  
ir its you and me forever if its you and me right  
now i'd be alright...

thank u 4 helping me, thank u for letting me be ,  
thank u , thank u , thank u 4 looking after me,  
thank u , thank u , thank u for looking afetr meee.
