"The Other Way"

Visit "[The Other Way](#)" on MotoLyrics.com

Breaking through the core
The cuts run deep pure
Polluted minds stand in the way
Polluted minds will always say

(Do the) do the same
(Do the) do the same
Do the same things every day never look the other way

Eyeliner running through lipstick enough for two
I like the optimistic view
It's what attracted me to you
Through the down, together we'll look down
Together we could climb and fly
To where the ocean meets the sky

Decisions too unsure
We're never very sure
If it's just a wasted day
Hoping they won't smile and say

(Do the) do the same
(Do the) do the same
Do the same things every day never look the other way
