[Girl:]

I'm not sorry that I lied on you
Oh, but you didn't love me, it hurt me so deeply
I'm not sorry that I lied on you
(Ooh why...)

[Verse 1:]

I thought that I told you before we hooked up
You and I would be nothing more than friends
Everywhere I go on the radio I keep hearing all the
things that you said
You and I only had sex one time and you now I had you
open since
And now you're saying I raped you and left your ass for
dead (dead)
I should have listen to my best friend
When he said he heard that you were sick in your head
I should have get to know you before I let you come
inside my bed
I worked too hard to get these things that I got
So I'll be damned if I'm a let you take this things to the
cops

[Chorus:]

You said it was cool, you was with it
Was down when we did it
And now you're gon' act a fool
I said it was wrong you aint seen it
We had an agreement
Now I'm doing what I gotta do
Now you can't get your grips your flips
But how I flip the script
But see we never really had it like that
I aint got the rules you agreed
And I gave you what you need
This is real, it's the truth,
This is everything I can give you

[Verse 2:]

You can talk them lies but you aint getting no check
And if you get it you'll be murk before that money is

spent
I swear to god Im'a get raw
Send out all my worst dawgs
Tryna get rich of the next man shit bitch
That aint cooler dawg
You gon' watch a nigga fall just to get you some cash
I should have got this shit on tape before I fucked with
your ass (wait)
I might just say the thing that I need
To clear my name and show the whole world you're
lying on me

[Chorus:]

You said it was cool, you was with it
Was down when we did it
And now you're gon' act a fool
I said it was wrong you aint seen it
We had an agreement
Now I'm doing what I gotta do
Now you can't get your grips your flips
But how I flip the script
But see we never really had it like that
I aint got the rules you agreed
And I gave you what you need
This is real, it's the truth,
This is everything I can give you

[Verse 3:]

Ladies and gentlemen, judge and jury
Im'a put this bitch on ice
So I need you to hear me
0607 exactly 12:38 on the 5th day
I know it causes rider on the tape
Press play and watch this chick get down like a pro
She was being raped and think she be headed for the
dough
I just didn't know my best fried came by that day
Quarter 5 he hit record
Now you're watching the tape

[Talking:]

Your honour, jury
My only crime is not loving this woman
The way she wanted
I mean, you've just seen the tape
She was in that position
'Cause she wanted to be that position
And no other reason
I'm innocent and I'm no the person that she's trying to
make you relay on
If I wasn't Jhevon Paris I don't think I'd be here

You think about it

[Girl:]

(I'm not sorry that I lied on you)

I don't regret what I did

(Oh, but you didn't love me, it hurt me so deeply)

You deserve it

(I'm not sorry that I lied on you)

(Oh why...)

You fucking deserved it (order)

You fucking deserved it

Get the fuck off me

Jhevon I fucking hate, I'm gonna fucking kill you (order)

Why the fuck could you love me, why could you love me
