I was dreaming
Of a life on the farm
Therapy/Growth/Therapy

Wife and Rover
And a pipe in my hand
Therapy/Growth/Therapy

Inner dreaming
Of a life somewhere else
Therapy/Growth/Therapy

Then my girlfriend
Was waylaid at her acupuncturist
Therapy/Growth/Therapy

(there's something about it)
(soon you're listening to them)

Small town girl
There's one thing that I know
Therapy/Growth/Therapy

You're growing inwards
Therapy/Growth/Therapy

And I ain't gonna fall in life with you
Sip the holy water
And I ain't gonna spend my time with you
If time is so important
And I ain't gonna worry over you
Lend any resistance
To the game you play
You won't find me bending over to
Justify existence
By working on a weakness
And I don't wanna know the secrets of the universe
Secrets of the universe
