"Violent Abolition"

A place in fear, a scene in pain, lasting chaos
in the dust
The battle is on and warfare's cruel, tornados of
bullets, the next attack
nothing's left from days of commands, metal strikes
the pigs abolition
ruthless in the face

Run to War! opressing forces fall!
no distinctions in fields of Violent demolition

end in pain, if you wanna judge us abusing your tall
force
damaged we'll keep on joining the pit to save our
lives
years have bred a youth in rage, a bloody pit gone wild
violent abolition will end tonight, ruined dreams shall
now arise

we run to war! opressing forces fall!
the power obsessed we fight with violent demolition
demolition, thrash!

a place in rage keeps thrashing the wasted land , in the
pit!

run to war! opressing forces fall
violent abolition leads to war
we fight violent abolition
in fields of violent demolition
