In one single moment, your whole life can turn around  
Stand there for a minute, starin' straight into the  
ground  
Looking to the left slightly, then looking back down  
The world feels like it's caved in proper, so he frown  
Please let me show you how we could only just be for us  
I can change, and I can grow, or we could adjust  
The wicked thing about us is we always have trust  
We can even have an open relationship if you must  
I look at her, she stars almost straight back at me  
But her eyes glaze over like she's looking straight  
through me  
Then her eyes must of closed for what seems an  
eternity  
When they open up she's lookin' down at her feet

(Chorus)

Dry your eyes mate  
I know it's hard to take, but her mind has been made up  
There's plenty more fish in the sea  
Dry your eyes mate  
I know you want to make her see how much this pain  
hurts  
But you've got to walk away now  
It's over

So then I move my hand up from down by my side  
Shaking, my life is crashing, before my eyes  
I turn the part of my hand up to face the skies  
Touch the bottom of her chin and let out a sigh  
Cause I can't imagine my life without you and me  
There's things I can't imagine doing  
Things I can't imagine seeing  
It weren't suppose to be  
Easy, surely, please please  
I beg you, please  
She brings her hand up towards where my hands  
rested  
She wraps her fingers round mine with the softness  
she's blessed with  
She peels away my fingers looks at me and then

gestures

Of pushing my hand away to my chest, from hers

(Chorus)

And I'm just standing there

I can't say a word

Cause everything's just gone

I've got nothing

Absolutely nothing

Tryin' to pull her close out of bare desperation

Put my arms around her, tryin' and change what she's  
sayin'

Pull my head level with hers, so she might engage you

Look into her eyes to make her listen again

I'm not gonna fucking just fuck and leave it all now

Cause you said it will have been forever and that was  
your vow

And you're gonna let our things simply crash and fall  
down?

You're well out of order now, this is well outta town

She pulls away my arms to tightly clap around her waist

Gently pushes me back as she looks at me straight

Turns around so she's now got her back to my face

Takes one step forward, looks back

And then walks away

(Chorus)

I know in the past I've found it hard to say

Telling you things but not telling straight

But the more I put on your hand and say

The more you...pull away

(Chorus)
