All the things I wanna say is that I love you boy and  
i hope your ok. All the past every piece that I have  
I will keep for you, in memory of us two.  
There were good times. There was laughter,  
there was love, there were kisses and there were hugs.  
But everything fell apart when I broke your heart.  
I began to cry, tears straming down my face

I never ment to hurt you, i never ment to make you  
cry. The look on your face makes me cry everyday,  
because boy I love you as much as this heart can love  
yeaa i never meant to hurt you,  
i never ment to make you cry.  
All the things I wanna say is that I love you and i hope  
you're ok.

Every wish that I had for us,  
you and me. Every story that you told me,  
yeaa, i still believe. Evertime that you smiled I would  
die one more time because I can't believe you were  
mine.

But I broke it all and you took the fall.  
I couldn't reach you and I couldn't find you but baby  
wherever you are, please come home

Do yu know how much I love you?  
Did you know i'll do whatever you say? Did you know  
your Beautiful?  
This songs for you and all the things I wanted to say  
but I never got the chance too?

Ohhh yeaaaaa i still love youuu boy.  
....but i never got the chance to tell you boy.....
