[Chorus:]

Your taste is so good, can you wait for a while
Till I get home you can start without me, just take it
slow
Can you wait for a while
Till I get home you can start without me, just take it
slow
I don't wanna miss out a thing, have your body jump it
till the bed breaks
[?] looking when I finish [?] lecture,
Girl, are you ready for some action

Simply amazing, [?] somebody
Miss independent, she got her own money
When I slide inside, feel like Shawty
Took my soul from me
I'm so open none of these other girls exist
Lost for words I wanna tell you about her lips but
I'm racing home trying to get to her
Her text is very clear, daddy I need you here
Yeah, baby I be there, one 12 lives
And we can do it everywhere
Bed or the shower, Jacuzzi, kitchen counter
Sex a couple hours, then take another shower
Round 2, late beg I'm a do all of the work boo
I'm nothing like them lame dudes you probably used
too
Shhh, Shawty sleeping, and I ain't ever gotta worry
about her cheating

[Chorus:]

Can you wait for a while
Till I get home you can start without me, just take it
slow
Can you wait for a while
Till I get home you can start without me, just take it
slow
I don't wanna miss out a thing, have your body jump it
till the bed breaks
[?] looking when I finish [?] lecture,
Girl, are you ready for some action

Bottle of rose, bed of roses,
I'm so [?] I'm so focused
[?] slow motion, pull her hair [?]
She say the one with the 2 fulfills
In other words, 2 pistols pill
Let's get that crystal clear, my name Teddy uh, right
[?] in other words, she ain't going nowhere
She gonna stay right here
With the young blood money making [?] flier than a
bird, higher than a [?]
Fresher than a mall, richer than all of them
Here's a [?] Shawty get you one of them
We all in the dressing room, I'm kissin on the ear
Round 3, we gonna start right here
I got her so hot, Shawty fogging up the mirror
Pull her body close, how that feel?

[Chorus:]

Can you wait for a while
Till I get home you can start without me, just take it
slow
Can you wait for a while
Till I get home you can start without me, just take it
slow
I don't wanna miss out a thing, have your body jump it
till the bed breaks
[?] looking when I finish [?] lecture,
Girl, are you ready for some action.
