I can't find my way out of this place  
I'm crawling on the floor  
If the party's over, why won't you tell me?  
I don't see you dancing any more  
(chorus)  
Well when all the doors are open wide  
I'll be yours and maybe you'll be mine  
So close your eyes; kiss the sky  
The door is open won't ya come inside  
Well can you hear the wind? It's telling lies  
It happens all the time  
Can you see the faces, seraphim eyes  
They make me want to cry  
(REPEAT CHORUS)  
Come inside, come inside  
Well, I could dive in deep or float on by  
It doesn't matter to me, no  
'Cos one way or another  
I'm gonna get myself right out of this dream  
(chorus2)  
When all the doors are open wide  
I'll be yours and maybe you'll be mine  
So cover your eyes; kiss the sky  
The door is open, so come inside
