Yeah, wild nights, long hot days  
Love affairs begin this way  
And all the girls dance real slow  
Lipstick kisses, dirty dreams  
Heartbeats faster than a drum machine  
Will he be the one to take you home?  
I'm floating up into the sky  
And everything will be just fine  
(chorus)  
Here comes that flower girl  
With her ice cream eyes and faraway smile  
Here comes that flower girl of mine  
See-thru heart shines in the dark  
Forget me not, I hear you laugh  
On days like this I'd die for you  
Love comes easy; love comes fast  
I get so scared that it won't last  
What am I supposed to do?  
I'm floating up into the sky  
And everything will be just fine  
(REPEAT CHORUS)  
Float up high and float away  
Listen to what the flowers say  
Float up high and float away  
Come again some other day  
Passion comes and passion goes  
Fades just like a paper rose  
All is nothing; nothing's new  
From Istanbul to Sugar Hill  
Everybody wants the thrill  
But all I ever want is you  
I'm floating up into the sky  
And everyone is floating by  
(REPEAT CHORUS x 2)
