You say they've been making plans  
Oh your life's not your own-it's out of your hands  
You can betray your dreams  
Or trade them in for a life that's easy to lead  
(or you could) Gather pearls on a coral reef  
Walk the wall of China  
Fall in love with me  
(chorus)  
You better Follow Your Heart  
Don't let no-one else do your livin' for you  
Follow Your Heart  
And to yourself and no-one else always be true  
How will you be the one  
If you dance to the beat of another man's drum  
How will you feel the sun  
Knowin' all the time it could've been love  
(or you could) Sail down the Nile on a royal barge  
Be a mother or a lover  
You could go far  
CHORUS  
Do you really wanna live on dreams  
Forever thinkin' what could've been  
Do you really wanna play the game  
Forever lookin' for someone to blame  
And do you really wanna stand in line  
Keepin' the faith 'til your old 'n tired  
Do you really wanna live on lies  
Or watch as your life just passes you by  
(Or you could) Gather pearls on a coral reef  
Walk the Wall of China  
Fall in love with me  
CHORUS
