I'm always treading on dangerous ground  
And everything seems to be upside down  
Are you practicing for judgement day?  
Or do you really mean those things you say?  
(chorus)  
Day after day, night after night  
There's a panic in this heart of mine  
Day after day, night after night  
I'm looking for something that's just too hard to find  
I'm not the man you wanted me to be  
He's kept alive inside your fantasy  
But now the magic me is fading fast  
Let me remind you of the face behind the mask  
(REPEAT CHORUS)  
Can't you see there's just no promised land, doesn't  
happen that way  
I hope you'll try and understand there's nothing I can  
do or say  
(REPEAT CHORUS x 3)
