I'm angry
Yes I'm angry
Very angry
Two people living
Living together
They do the things they want
They think they're clever
But when they fight or play their silly tricks
When they fall in love it's only politics
(chorus) Politics...Politics, yeah
Politics, Politics, Politics
I'm frightened
Yes I'm frightened
Very frightened
The boy is frightened
He doesn't understand
He's in love with another man
And when they fight or play their silly tricks
When they fall in love it's only politics
(REPEAT CHORUS)
Now I see it
See it for what it is
What seems so personal is really politics
And when we fight or make ourselves sick
When we fall in love it's only politics
Politics, yeah
Politics, tics
Politics, tics tics tic tic tic
Politics, yeah
(REPEAT CHORUS)
What seems so personal is really politics
Politics
Politics
