There's a scandal in the city, lots of rumors flying  
round  
I gave them all my money, what I lost they found  
Sometimes I think they're madder than hatters having  
tea  
Setting up the situation to destroy the scenery  
(chorus)  
(There's no peace) No peace for the wicked  
We're dancing till we drop  
(There's no rest) No rest for the wicked  
And we're all too scared to stop  
Oh can't you see the trouble?  
It causes me much pain  
Cause I don't understand  
Why should I stand out in the rain?  
Sometimes I think they're madder than hatters having  
tea  
Setting up the situation to destroy the scenery  
(REPEAT CHORUS x 2)  
Satellites spin through the air, suffragettes are  
everywhere  
When the headlines hit the streets they're gonna knock  
you off your feet  
Satellites spin through the air, acrobats of atmosphere  
Maybe love will disappear  
I wonder if you really care  
There's two people on the wire  
Making fun of what you said  
Say you're looking for affection  
Won't you look at me instead?  
No peace for the wicked  
We're dancing till we drop  
No rest for the wicked  
And we're all too scared to stop  
(REPEAT CHORUS x 2)
