Verse 1

See the folks surrounding You calling out Your name
Jesus Jesus help save me sure I sound the same
Heard about Your miracles quiet as they kept
Lord, I plan to follow in Your steps right left
I know You gotta lotta rounds to make
I know Your times too valuable to waste
Im in need from a touch from You
I gotta have it Lord I just cant wait

Chorus

Please oh please dont pass me by
Lord, I need You I want a blessing
While Youre helpin out these other folks
Dont forget about me Savior Savior Savior
Please, dont pass me by

Verse 2

Lord, I cant deny that Youre the only help I know
While Youre passing out Your blessings dont forget me
yo
Cant contain it Lord I gotta let my feelings show
Without Your help Im out this game, oh
And I know (3x) You gotta lotta rounds to make
And I know (3x) Your times too valuable to waste
Im in need (3x) from a touch from You
I gotta have it Lord I just cant wait

Chorus
