hey babe
I think I'll have a cry
cause I'm not this biggest guy on the football team
and I know you think that's cool
I'll just read my emo books and wear my emo glasses
make up fake pink passes just because
oh
I'm just an emo kid
sXe (straight edge) written on my wrist
to cover up the slits that I put there with my razor
over night because I flipped my lid over you
when I found out that it's true
whoa oh it's true
I got my hair cut just for you
and I look like that girl from the math club
you know it's all okay
I'm not ashamed or metro-sexual
because I'm anerexual again
over you oh (oh oh)

hey babe
I suck at my guitar
and I won't get very far
with this band I'm in
and I know you think that's cool
my newest Dashboard CD is too expensive for me
and I'll ask you to pay for it because
oh
I'm just an emo kid
sXe (straight edge) written on my wrist
to cover up the slits that I put there with my razor
over night because I flipped my lid over you
when I found out that it's true
whoa oh that it's true
I got my hair cut just for you
and I look like that girl from the math club
you know it's all okay
I'm not ashamed
or metro-sexual
because I'm anerexual again
over you oh (oh oh)

you're not gonna make me cry
I swear (sniff)
you're not gonna make me cry
not again, no
I'm just gonna make this all okay
gonna be your big mack-daddy today
getting rid of this emo thing
I'll shave off my emo haircut just for you
hahahahaha not

I'm gonna cry over this spilled milk because
oh
I'm just an emo kid
(I won't cry again, not again)
sXe (straight edge) written on my wrist
to cover up the slits that I put there with my razor
(I won't cry, I won't cry again; found out that it's true)
over night because I flipped my lid over you
when I found out that it's true
whoa oh that it's true
i got my hair cut just for you
(I won't cry again; found out it's true)
and i look like that girl from the math club
you know it's all okay
(I won't cry, I won't cry again; found out it's true)
I'm not ashamed
or metro-sexual
because I'm anerexual again
over you oh
over you
