"Honest? Honest."

it's all in how you turn the painting
if the color's dripping
turn it this way, right away
so you might see
some kind of frame
but baby you wont buy, go away

(chorus)

everybody's doin' it, everybody's doin' it
honest? honest.
we do it though we hate it
we know we hate it
but wont walk away

honest? honest.

a turn in time
what am i talking about you ask?
i've got so much to sing about but you
you and me
are in pain
and baby you aren't mine, go away

(bridge)

changing the topic here
the rodents race tonite
has something laced it?
its not my fault
this is not my fault
