"Hold on"

Visit "[Hold on](#)" on MotoLyrics.com

I'm always cutting corners
to make it through the day
So many words unspoken
but I haven't got the time to stay

The streets are full of strangers
I know them every single one
They fill my heart with sadness
like an old sweet song

Hold on
I got to stick to my own decisions
Hold on
I want to stay with the one I love

I'm always cutting corners
I've tried to find my piece
I've always had a fling with someone
I had so much to release

Hold on
I got to stick to my own decisions
Hold on
I want to stay with the one I love
Hold on
I got to stick to my own decisions
I want to do it all again
I want to see your face again
