Stormy weather
and the things you do
The sound of water
reminds me if you

This is it as we are walking
time disappears when you're alone
This is it as we are walking
Our feet are gonna take us home
Take us home

Stormy weather
I want to walk you home
you know it hurts when you're leaving
and the clouds take form

This is it as we are walking
time disappear when you're alone
This is it as we are walking
Our feet are gonna take us home
Take us home
