I'm still thinkin' about the days
I'm still thinkin' in many ways
I'll carry on
now that you're gone
The days are changing colours

Don't know how long you'll be gone
I'll keep my head high and stay strong
It's in my heart
It's been there from the start
and the days are getting longer

Life is like a big long ride
We're drifting from side to side
It's a long way down
and there's no way around
and the nights are getting shorter
nights are getting shorter

Just knowing you're talking about me
and the man I used to be
makes me want to start again
as a passionate man
Then living would be so easy

Life is like a big long ride
We're drifting from side to side
It's a long way down
and there's no way around
and the nights are getting shorter
nights are getting shorter
