

## Thoughtcast Shadow "Singularity"

Visit "[Singularity](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Geometric circles, the human brain's a fractal, the  
singularity is coming faster than you might think.  
Event horizon reaching out, snaring us with quantum  
fields, dark matter dark matter, dark energy dark  
energy.

L-H-C-- Deliver Unto Me!

Theories all around us, discarded and disproven, will  
the L-H-C find, something that we can't explain?  
Some would say string's the thing, eclipsing relativity,  
some would cry out theory, others say absurdity.  
L-H-C--- Deliver Unto Me!

Bioengineering, political red herrings, Robots Robots,  
you won't get the best of me, new physics changes  
everything, wormholes might take us back in time,  
molecular computing, Stephen Hawking is a friend of  
mine!

L-H-C--- Deliver Unto Me--- The answers that I seek-- For  
the Singularity
