I'm just the boy inside the man, not exactly who you  
think I am

Trying to trace my steps back here again, so many  
times

I'm just a speck inside your head, you came and made  
me who I am

I remember where it all began, so clearly

I feel a million miles away, still you connect me in your  
way

And you created me, something I would've never seen  
When I can only see the floor, you made my window a  
door

So when they say they don't believe, I hope that they  
see you and me

After all the lights go down, I'm just the words you are  
the sound

A strange type of chemistry, how you've become a part  
of me

And when I sit alone at night, your thoughts burn  
through me like a fire

You're the only one who knows, who I really am

We all wanna be somebody, we just need a taste of  
who we are

We all wanna be somebody, we're willing to go but not  
that far

And we're all seen through just like glass

And we can shatter just as fast

That light's been burned out for a while, I still see it  
every time I pass

It was lost in the coldness of my mind, behind a box of  
reasons why

I never doubted it was there, just took a little time to  
find

And even when...

I feel a million miles away, still you connect me in your  
way

And you created me, something I would've never seen  
When I can only see the floor, you made my window a

door  
So when they say they don't believe I hope that they  
see you and me  
After all the lights go down, I'm just the words you are  
the sound  
A strange type of chemistry, how you've become a part
