It falls apart from the very start, it falls apart  
It falls apart, everything around me falls apart

It falls apart from the very start  
It falls apart, seems like everything I touch  
Falls apart, everything around me  
Falls apart, when I walk away from you

I wish I could but I don't always  
Keep the promises I've kept  
I wish I could but I can't always  
Give whatever I have left

And now it's all so clear  
Did any one see what's happening here?

It falls apart from the very start  
It falls apart, seems like everything I touch  
Falls apart, everything around me  
Falls apart, when I walk away from you  
When I walk away from you

I know I should but I don't always say  
What you want me to say  
I know I could but I don't always act  
Like everything's okay

And now it's all so clear  
Did any one see what's happening here?

It falls apart from the very start  
It falls apart, seems like everything I touch  
Falls apart, everything around me  
Falls apart, when I walk away from you  
When I walk away from you, when I walk away from

Everything I have ever been made of  
Hates who I am, I'm so glad you waited  
Can't get my mind off, that you can love me  
I'm so behind, you're so far above me

And you'll always be the wind under my wings, above

me  
And you'll always be the wind under my wings, above  
me

I will not let it go to waste  
I'm takin' all I got, I'm leaving this place  
And I will not let it go to waste  
I'm takin' all I got, I'm leaving this place

Man, I will not be taking up space  
I'll take my best shot, I'm picking up the pace and

It falls apart from the very start  
It falls apart, seems like everything I touch  
Falls apart, everything around me  
Falls apart, when I walk away from you

It falls apart form the very start  
It falls apart, seems like everything I touch  
Falls apart, everything around me  
Falls apart, when I walk away from you  
When I walk away from you, when I walk away from you
